These are all contractors we have worked with, used as subcontractors, or have had clients that have recommended to us. We always suggest you check with the Contractor's board where applicable at www.cslb.ca.gov. Please report any problems so we can remove anyone from the list that doesn't perform or gives you any trouble in any way. We don't make any money from our referrals, but I admit I've gotten a few nice Christmas gift baskets. Mostly, these are small companies that should be able to help you out. Call me with any questions at 619-295-1230.
